Changes to our internet hosting

As part of AFS' continuing commitment to improving security and availability of our online services, we are introducing new IP addresses for our hosting environment.

Below, you will find a table listing all IP addresses that should be whitelisted for access to AFS hosted applications services.

IP Addresses	Status	Changes
207.232.94.29/32	Existing Service	End of service after October 1st 2025
207.232.81.0/25	Existing Service	End of service after October 1st 2025
162.213.142.0/25	Existing Service	End of service after October 1st 2025
199.88.206.0/24	**New Service**	**Start of service September 1st 2025**
67.210.232.128/26	Existing Service	End of service after October 1st 2025

If you are currently whitelisting AFS IP addresses, it is important to update your configuration with the new service as soon as possible.

AFS will be performing a phased migration of our hosted solutions to new the IP addresses after the service start date.

We recommend forwarding this information on to your IT department or support provider for implementation. If you have any questions, please direct them to **csteam@afs.net**.
